

From **Apostle Art Smith**: *“On Saturday evening at 8:11pm local time, an earthquake measuring 5.9 on the Richter Scale struck just north of Port de Paix, Haiti. Community of Christ has a large congregation in Port de Paix and other congregations and many members in the Haiti Great North Department. News reports indicate some loss of life and injuries as a result of the quake. Some schools and homes have collapsed. Early reports from Laner Lefort, Mission Centre President, are that Community of Christ has not suffered injury or loss of life, although some members homes have been damaged. More details will continue to become available in the days to come. Thanks to friends of Community of Christ in Haiti for prayerful support.”*
