

Survey – World Conference

The Resolution on Nonviolence has been selected by the First Presidency for consideration at the 2019 World Conference using the first part of the common consent process. This means that delegates will spend additional time listening to one another and surveying.

To help us prepare for that activity, we need your help identifying the perspectives on this resolution within the church. Please [share your perspective](#) with us. This survey closes 10 September 2018.
