

As we get closer to welcoming campers back to our beloved campgrounds, our financial commitments still need to be met. 2021 will continue to be a challenge until we are able to safely re-open and provide the facilities and services our guests are longing for. Our fingers are crossed that this will be sooner than later.

We need your help. Last year we achieved our goal of 75 households that donated to Whispering Pines! This year we hope to even exceed that number. If you have \$10 or more to give, you become one of our donating households and a Whispering Pines hero.

Whispering Pines is a place that people of all ages, find friends, explore their purpose, and experience God in a peaceful and beautiful place. This has been the message for over 50 years. Even if you no longer are able to go to WP, please consider a financial gift that will help a person or a child, you will never know, which is the greatest purpose of a gift. Indigenous peoples, people from the city, future church camps and reunion, all include folks you will never know, but will be recharged and redeemed as they launch from this place.

Join a growing group of heroes, with a donation of \$10 or more! Any amount is appreciated. Thanks to all that have committed!

When everyone gives a little, it's amazing how it adds up. 🙌❤️🙏
